## IRRIGATED LANDS PROGRAM: PRELIMINARY MONITORING RESULTS

The posted files present an update of monitoring results for data collected for the Irrigated Lands Conditional Waiver Program (Program). The tables incorporate most of the monitoring that has been submitted to the Program through 1 April 2006. Data submittals include results from coalition group monitoring, individual discharger monitoring, and Central Valley Water Board Monitoring through contract with University of California at Davis. For information regarding the specific data sets that have been included in these tables, please see attached Table 1.

Monitoring results include field measurements, non-pesticide chemistry, pesticide chemistry and toxicity results for water and sediment. The data have been divided and posted separately by the Coalition Region in which the samples and or measurements were taken, regardless of whether the samples were collected by the discharger, or by the CVRWQCB through contract with UCDavis.

These preliminary results have not yet been evaluated for compliance with Basin Plan standards or compared to water quality goals.

Any questions regarding this data may be directed to Margie Lopez-Read at (916) 464-4624 or by email at [mlopez-read@waterboards.ca.gov](mailto:mlopez-read@waterboards.ca.gov).
